

Pressure transducer, 0-70bar, 0.05 to 10v DC Output

Code: [6014A0065](#)

Product Group: [Spares, Softwares](#)

Further Information

****Not available for sale in the USA****

Specification

Pressure range	0-70 bar
Output signal	0.05, 10V
Pressure port	BSP G1/4" male thread
Electrical connector	Twist lock conn. with 2m cable
Linearity	0.5% of full scale (LBFSL)
Total error band	1.0% FS over 0-50 deg.C
Supply	13-32 VDC
Overpressure	800 bar
