

Wet & Dry Bulb Hygrometer

Code: [506-106](#)

Product Group: [Humidity measurement](#)

- Easy to read.
- Use outdoors in a screen.

The wet and dry bulb hygrometer is designed for general use and consists of two undivided thermometers mounted on a printed plastic scale. Between the thermometers is a unique slide pointer which allows relative humidity to be easily read. The scale is housed in a plastic case which also holds a reservoir with anti-frost device
